[Big Tech's Effort to Silence Truth-tellers: Global Research Online Referral Campaign](#)

The most extensive [study](#) yet carried out on COVID-19 vaccines has confirmed their links to serious health problems. Examining the vaccination records of over 99 million people, researchers uncovered significant increases in the occurrence of neurological, blood, and heart-related conditions. The findings seem likely to further fuel the ongoing arguments over the vaccines' supposed safety.

Conducted by the Global Vaccine Data Network and published in the journal *Vaccine*, the study looked at data on individuals vaccinated against COVID-19 across eight countries. Researchers identified higher-than-expected cases of thirteen medical conditions deemed "adverse events of special interest."

Myocarditis (inflammation of the heart muscle) showed a consistent increase in patients receiving mRNA vaccines, with the Moderna version of the injection demonstrating the highest incidence after second doses were given. Cases of Guillain-Barre syndrome, a debilitating neurological condition, saw a significant rise following administration of the viral-vector AstraZeneca vaccine.

Increases in transverse myelitis (inflammation of the spinal cord) were also noted with viral-vector vaccines, while cases of acute disseminated encephalomyelitis (inflammation and swelling in the brain and spinal cord) were associated with both mRNA and viral-vector vaccines.

Other conditions for which increases were found include pericarditis (inflammation of the lining around the heart) and cerebral venous sinus thrombosis (a rare form of stroke).

A Growing Mountain of Evidence

The study adds to a growing mountain of evidence regarding the risks of COVID-19 vaccines. In a previous [analysis](#) published in 2022, for example, researchers found that the Pfizer and Moderna mRNA injections are more likely to cause serious adverse events than they are to prevent hospitalization from COVID-19. As such, it is now clear that mRNA vaccines are associated with [more serious harms](#) than was originally claimed.

While still essentially ignored by the mainstream media, the full list of adverse effects reported in connection with mRNA vaccines is already long and includes [very low platelet counts](#) (thrombocytopenia); [high rates](#) of severe, potentially [life-threatening allergic reactions](#) (anaphylaxis); [severe liver damage](#); and even [death](#).

In November 2021, as their potentially devastating side effects became clear, Dr. Matthias Rath [called for the immediate suspension](#) of RNA- and DNA-based COVID-19 vaccines. His intervention followed the publication of game-changing research in the journal *Viruses* which found that the coronavirus spike protein is able to reach the cell core (nucleus) and significantly inhibit DNA damage repair. The effective repair of DNA – the biological software of each cell – is essential for maintaining a strong immune defense and protecting against a multitude of diseases, including cancer.

While Slovak Prime Minister Robert Fico has at least made a step in the right direction and openly [linked COVID-19 vaccines to cardiovascular deaths](#), the vast majority of the world's other political leaders essentially remain in a state of denial. But with the scientific facts becoming increasingly clear, their public statements on this subject will inevitably come under increased scrutiny in future.

The bottom line here is that having previously coerced people into accepting COVID-19 vaccines – and, in some cases, even mandated their use – politicians are beginning to realize that the vaccine injured cannot be silenced. British Prime Minister Rishi Sunak is acutely aware of this, having recently been [confronted by a COVID-19 vaccine injury victim](#) on live television. Following publication of the world's largest study into COVID-19 vaccines, Sunak's counterparts in other countries will doubtless now be desperate to avoid such situations themselves.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global

coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
