Two and a half years ago I had the inkling that we were in a war the likes of which had not been waged or experienced before. A war unlike the one in which my father participated in the 1940s in France, and unlike the war from which older kids returned to the Naval Hospital in Philadelphia with broken bodies and souls in the 1960s and early 1970s, if they returned at all.

The Corona War, as I shall name it, involved casualties: people were injured and people died. Winston Churchill famously said that in wartime “[truth is so precious she should always be attended by a bodyguard of lies](#).” The precious truth in the Corona War, which we all continue to endure, is that it was indeed all founded on a lie.

Michel Chossudovsky, in his book “*The Worldwide Corona Crisis*” describes in clear and concise and unabashed language the origins of this war, its conduct and its goals.

He calls a spade a spade and, unlike some in the so-called resistance movement, he is unafraid to expose the conspirators that have engineered this war against humanity.

He is unafraid to pierce through the fog of this war – a fog that has been universally oppressive, relentless, a smothering and infinite barrage of threats and calculated feints and deceptions from the beginning – to demonstrate the truth.

Yes, it *is* a globally coordinated effort by the Few (World Economic Forum, World Health Organisation, Billionaires) to control the Many, whose endgame, via the manufactured COVID-19 crisis, is eugenics and depopulation.

Living as we do in the ongoing history of this crisis still, it is especially valuable to have a resource that provides a critical timeline of the various events leading up to and throughout the battle, and to learn in substantial detail about

- Big Pharma and Big Money;
- the drumbeat of fear;
- the consequences of the global shutdown on world economy and personal health;
- the fraudulence of the PCR test;
- the campaign against hydroxychloroquine;
- the lack of evidence to support claims to have isolated the actual virus;
- the severe impact of the derogation of rights and forced lockdowns on mental health;
- the death jabs masquerading as vaccines;
- and, of course, the Great Reset with its concomitant goal of universal digital IDs and a world populated by far fewer people living in subservience to the Global Elite.

The final chapter speaks about a road ahead and a need for “a degree of solidarity, unity and commitment unparalleled in world history” in the battle against tyranny, in the fight to reclaim the lives to which we are entitled, with their unalienable rights.

No book of this kind can be infinitely comprehensive, nor should it aspire to be. But in this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight.

Every day I awaken and ask myself the question “Can this really be happening, and on such a scale, can they really be doing this?” And every day I acknowledge the fact that indeed it is and indeed they are.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
