My Take...

I have not seen any explanation why so many chefs have been dying suddenly or unexpectedly in their 30s, 40s and 50s. Women and men.

Consequence of COVID-19 vaccine mandates? Something else?

“The working age population of United States has been poisoned” - Edward Dowd, former BlackRock Hedge fund Manager, after examining US Insurance data from 2020 to 2022 and seeing skyrocketing disabilities and deaths in the working age population that accepted COVID-19 vaccine mandates.

UPDATE: After writing this article I learned that SuperBowl Chef Connie Johnson died suddenly on April 13, 2023. She was 56 years old ([click here](#))

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
