Now that things have settled down, I can post. This morning while driving to school, our daughter Angel, had a black out. Her car slid off the road right into a tree. She woke up when the ambulance came. Ran hours of tests today in the ER. She came home pretty beaten up from the airbag and seatbelt. She has an appt Friday, to look further into these lil episodes. Thankfully, she's in one piece and did not break anything. The gods surrounded her today. Thank you Zippy for getting to her so fast! 🙏🙏

Got my 2nd shot today. My teens just got their 1st. My daughter said, my mom almost died on ecmo because of covid. Im doing this for her and others because of auto-immune diseases! 🙏 As of now, I have 37 people who decided to vaccinate because of my covid journey. 🙏 Outstanding! Little by little. Never give up. Never quit fighting. 3 weeks home from ICU! Getting stronger by the day! 🙏

Jan. 2022 (Osoyoos, BC, Canada) - 53 yo COVID-19 vaccinated truck driver Benton Letourneau blacked out while driving a semi, now has had stroke and epileptic seizures, he is upset at COVID-19 vaccine mandates

Nashville Angela @angelanashtn · Jun 21

Benton Letourneau, 53, Canada, complied with vaccine mandates to keep his job. He blacked out while driving a semi, has ongoing medical issues now, ie. stroke & epileptic events. Ended up losing his job due to declining health.

Hi my name is Benton Letourneau and after getting mandatory vaccination for coronavirus to keep my job I've experienced ongoing medical problems such as a stroke and some epileptic events in which cost me my trucking career please read all my documentation regarding this as a result I'm on medical unemployment and funds are limited I've had to give up my apartment and now living in my van any help is appreciated

Sep. 2021 - Erin Louise blacked out behind the wheel in the morning and wondered if her COVID-19 jabs had something to do with it

Erin Louise

Totally wrote my car off this morning. Blacked out behind the wheel. Not sure if the covid jab had something to do with it. I'm in PA Hospital. Five other cars involved... massive debt coming...

My Take...

Young COVID-19 vaccinated drivers are having “blackouts behind the wheel” and are crashing their vehicles.

These blackouts often happen early in the morning or in the middle of the day.

Police Officers who were forced, by COVID-19 vaccine mandates, to take mRNA vaccines to keep their jobs are now having medical episodes and crashing their vehicles.

What is causing these blackouts?

When the driver survives the crash, these are most likely COVID-19 vaccine induced micro-clots which are causing TIAs or Transient Ischemic Attacks. These are like mini-strokes that cause a temporary “black-out” but the person recovers quickly.

Some people continue to have these “blackout episodes” repeatedly, because they continue to create micro-clots which go to the brain.

When the driver doesn’t survive the crash, these could be either cardiac arrest caused by myocarditis, or episodes caused by larger blood clots such as heart attacks, strokes or pulmonary embolisms.

Anyone who has had such an incident and has survived should be on Nattokinase to help break down the thrombogenic spike protein as well as micro blood clots, such as the Wellness Company’s Spike Support formula ([click here](#)), or other products which contain Nattokinase, which is made from fermented soybeans.

Anyone who is COVID-19 vaccinated and has had such “blackout episodes” must take them seriously!

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
