2nd 'undeniable' causal link between COVID jab and death

THE ASAHI SHIMBUN

July 29, 2023 at 18:49 JST

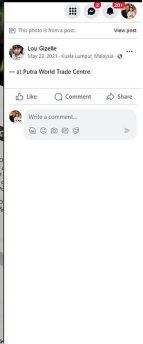

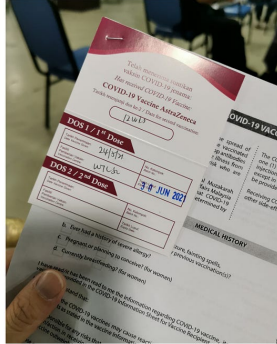

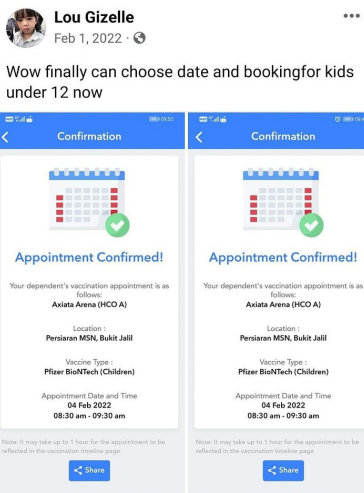

A patient is vaccinated against the novel coronavirus in Kyoto's Sakyo Ward in October 2022. (Asahi Shimbun file photo)

[Read this article from The Asahi Shimbun.](#)

My take on this story: The paper by [Nushida et al](#) is well known and was published in July 2023.

Malaysia - Kuala Lumpur - 10 year old Bridget Ho had Pfizer COVID-19 mRNA Vaccine on Feb. 4, 2022 and died on Nov. 26, 2023 from what appears to be cardiac arrest.

Lou Gizelle
November 29, 2023

26 NOV 2023
一切发生的太突然，所有病痛都不是一个monitor 字就可以。都没有时间说再见，爸爸在家CPR的时候还会咬他，而我在送她去医院的途中一直CPR，她还吐出水。到达医院一直抢救都没用，医生一直说没有了，抢救回来都没有，所有细胞，脑干都死亡了，只会是直物人。但我们哪里会放弃。但医生放弃了她。还一直说妈咪你要明白，我要怎样明白？甚至报告都写好，交给我们去报polis report. 做完警察报告就等待解剖部门。

27 NOV 2023
一早去解剖部门，医生给我们看他们所做接收妹妹后的报告，大大的COVID POSITIVE (而且我们有看到LAB TEST REPORT, 还是他们自己告诉我们验PCR才最准) 印在那里，搞到我们一阵混乱，因为家里还有3个孩子，要我们如何是好？他们就告诉我们COVID 变种病毒，就不能解剖了，只能X RAY 看里面的问题，那么就不能当天带她回家，而且covid positive 的话，遗体是不能带走，需要火化了才能做白事。从部门出来后，我就直接联系学校的家长群 (通知的是哥哥和她的家长群，因... See more

26 NOV 2023
Everything happens so suddenly, all sickness is not a monitor word. I don't have time to say goodbye, dad would bite him when he was home CPR, and I kept CPR on the way to the hospital and she spit out water. Arriving at the hospital has been useless, the doctor kept saying that there is no, there is no rescue back, all the cells, brain pole are dead, only straight people. But where will we give up. But the doctor gave up on her. Still saying mommy you have to understand, how do I understand? Even the report is written and handed it to us to do the polis report. Waiting for the autopsy department after the police report.

27 NOV 2023
I went to the anatomy department in the morning, the doctors showed us the report they had done after receiving my sister, the big COVID POSITIVE (and we saw the LAB TEST REPORT, or they told us they were the most accurate PCR test) printed there, which caused us a bit of confusion, because there were still 3 children at home They told us that it was a COVID mutant virus, it could not be dissected, only X RAY could see the problems inside, then she could not be brought home the same day, and if covid positive, the body could not be taken away, it needed crem After I came out from the department, I directly contacted the parents group of the school (notifying the older brother and her parents, because it is the same school, as parents, we also have to be responsible for other students, not quietly ignoring, otherwise other children will be hurt, BRIDGET will be guilty) The child is COVID accident, I hope to contact the children, (second brother also started to feel uncomfortable) We also rushed home to bring the three children to the home to test, maybe because of my news, the parents of the school panic (very sorry Just after 4pm, the anatomy department suddenly called to say that my sister is not COVID (I want to ask is that casual? Also told us that it wasn't covid that we could do a normal dissection and take her home later. (Fortunately we can keep the original and get her home, unfortunately when we got to pick her up after 6 o'clock, the police called and said they couldn't go home until Tuesday). I had to go to the police station to do STATMENT that night. (To remember the process).

28 NOV 2023
The whole family went to pick her up in the morning. When she arrived, the second brother was suddenly unwell, his heart rate was speeding up, Dad, grandpa took him to the hospital right away. (The result is abnormal heart rate, reduced lung function, and the final result is ASTHMA attack) Need hospital stay. What should I do? I can only tell the doctor that we have nothing to do. The doctor can only say that it has been observed for 2 hours. And I need to pick up my sister and bring her home. When I saw her, the suture of the body stung me.

29 NOV 2023

Hanoi girl dies after Covid-19 vaccination

By Chi Le November 28, 2021 | 07:11 pm PT

High school students sit to rest after receiving their first Covid-19 vaccine shot in Hanoi, November 23, 2021. Photo by VnExpress/Giang Huy

A ninth-grade girl in Hanoi's Thuong Tin District died a day after getting her first dose of the Pfizer vaccine, the second teenager to die following Covid vaccination in Vietnam.

She received the shot on Saturday morning as part of the city's campaign to vaccinate people under 18, and developed a high fever by night. Her family gave her fever medicines but to no avail.

She was taken to the Thuong Tin District General Hospital and soon transferred to Bach Mai Hospital, Hanoi's biggest medical facility, but she died on Sunday morning, Nguyen Viet Binh, chairman of the district's Nhi Khe Commune, said.

Vu Cao Cuong, deputy director of the city Department of Health, told *VnExpress* Monday that the cause of her death has yet to be identified.

[Vietnam](#) (Jan. 17, 2022) - Grade 9 girl (age 14) died less than half an hour after she received her second dose of the Pfizer-BioNTech vaccine on Jan. 17, 2022 (received 1st dose on Dec. 3, 2021).

Teen Dies Minutes After Receiving Second Pfizer COVID-19 Vaccine Shot

By Danielle Ong

01/20/22 AT 9:46 PM EST

KEY POINTS

- The girl had also experienced adverse reactions following her first Pfizer shot
- The 9th grader vomited blood and fell into a coma after receiving her second shot
- Six people in Vietnam have died due to adverse reactions to the Pfizer COVID-19 vaccine

A teenage girl in Vietnam died less than half an hour after she received her second dose of the Pfizer-BioNTech vaccine, the local medical center said.

The 9th grader, whose identity was not released by authorities, died Tuesday. She received her first Pfizer shot on Dec. 3, 2021, and experienced adverse reactions, including dizziness and difficulty breathing.

The teen, from the Phu Tho province, was immediately taken to the Ha Hoa District medical center where she received treatment and later recovered.

She received her second dose of the Pfizer vaccine Monday, and again developed adverse reactions such as tightness in her chest, dizziness, breathing difficulties and seizures, according to [VN Express](#).

The girl received emergency treatment from medical officers at the vaccination site before being transferred to the Ha Hoa District medical center. Her condition rapidly deteriorated upon arrival at the hospital where she began to vomit blood. She later fell into a coma and died. Her family was informed of her death Tuesday morning.

[Thailand](#) - 16 year old girl (daughter of Thanphit Sakunmat, from Lampang) died as a result of blood clots in lungs three days after taking 2nd Pfizer COVID-19 mRNA Vaccine on Oct. 27, 2021.

Teen dies from blood clots after second jab

Family holds off on getting more doses

PUBLISHED : 6 NOV 2021 AT 04:00
NEWSPAPER SECTION: NEWS WRITER: POST REPORTERS

A 16-year-old vocational student in Lampang has died as a result of blood clots blocking blood vessels in both lungs a few days after receiving her second shot of the Pfizer Covid-19 vaccine, according to her death certificate.

Specimens have been collected for testing and are being examined to decide whether she died as a result of side effects of the vaccination.

Thanphit Sakunmat, 48, the father of the girl, said his daughter had on Oct 6 received her first shot of the Pfizer vaccine under the government's Covid-19 vaccination programme for students and didn't experience any serious side effects. However, her father said only one day after she received her second shot of the same vaccine on Oct 27, she began experiencing a fever.

The following day she developed other symptoms including diarrhoea, vomiting, swallowing difficulties and fatigue.

On the third day her vomiting became more severe, which resulted in stomach pain and more severe fatigue, he said.

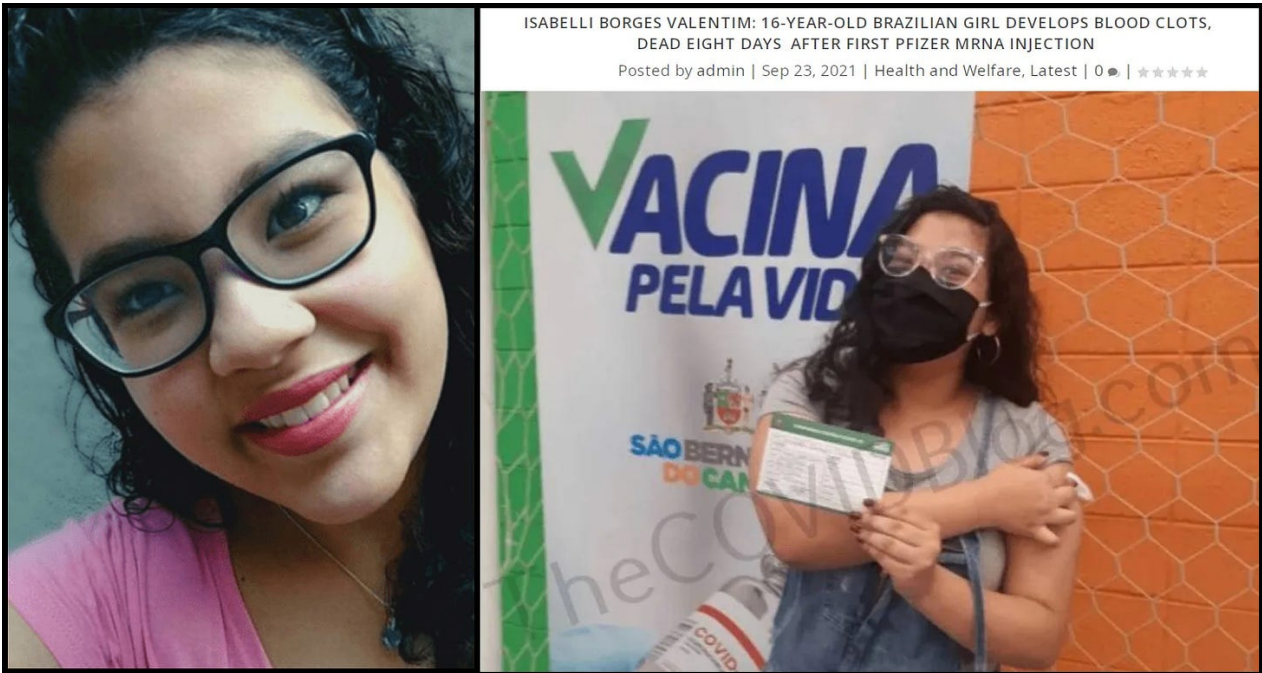

He called an ambulance and rushed his daughter to the hospital after she began suffering breathing difficulties.

She was later pronounced dead after being treated in an intensive care unit, he said.

The death certificate issued by the hospital indicated that she died of thrombosis in the lungs.

Brazil – 16 year old Isabelli Borges Valentim, student at a private Christian school had 1st Pfizer mRNA on Aug. 25, 2021, developed blood clots and died 8 days later on Sep. 2, 2021

What a pain! What a nightmare! What a void! I miss you so much!
What a damn lab!

You who are a father or a mother don't deserve to lose a child. Goes against human nature.
It only happens by the will of God.

Today we are going to live with a lot of difficulty, with a lot of pain, one day at a time.

Any person who has NOT LOST A CHILD, any person like that can't imagine the pain. It can't be!

When you meet a person who has lost a child, look closely into her eyes and you will see a point of sadness, a heart that will be eternally hurt, a chest that will always have an emptiness.

Nothing and no one will ever fill this void, heal this heart or completely complete this person of joy. There will always be a lack, a pain, an emptiness. Always.

Tomorrow will be 3 weeks since our little cutie named Helena leaves.

18.02, exactly one month ago Helena took her v@xxin@ from "F ÁIZZERR", on the 25th of the same month she slept PERFECTLY WELL and the next day, it didn't dawn.

Slept healthy, much loved, very cheerful, extremely happy, and didn't wake up.

This is a brief summary of history.

It hurts too much and we can't shut up. Inside us here, there is a storm of feelings, sometimes we are laughing at fools and we fall to the pit, like today... A horrible, sad, day only saved by our little Yasmin, because I believe without her me and my wife wouldn't have much to do here.

clideo.com

Think before you suffer the loss of a child. Think very carefully before taking your child to take this shit.

Don't miss the course of your life... don't lose your children.

I love you Helena! Keep an eye on us.

Thank you my love @virginalavalle and I'm sorry I didn't do more for our little one...

Everything I did was always with a lot of affection, care and a lot, but a lot of love. I tried to be the best father, the best friend and the best example for her. I tried to be that hero that stays forever in our childhood memories.

Today I don't even know who I am anymore.... ❤️ ❤️

Germany (Hollfeld, Bavaria) - 15 year old Cheyenne Braun had 2nd Pfizer mRNA on Nov. 1, 2021, suffered a massive heart attack on Nov. 4, 2021 and died on Nov. 17, 2021.

Germany, Cuxhaven: A 12 year old girl died shortly after Pfizer COVID-19 mRNA vaccine in Oct. 2021 ([click here](#)).

The preliminary autopsy protocol suggested that the child’s death had occurred as a result of the vaccination.

Due to this temporal connection, the district health department commissioned the body to be autopsied, which was then carried out in the Hamburg University Hospital.

“We are faced with a particularly tragic case here”, said the head of the health department, Kai Dehne.

France – 16 year old Sofia Benharira, student at Lycee Valabre de Luynes-Gardanne, had 2nd Pfizer mRNA jab on Sep. 14, 2021, chest pain on Sep. 20 and died suddenly on Sep. 21, 2021 after 2 cardiac arrests & clots ([click here](#)).

France – 16 year old Melanie Macip died of cardiac arrest 5 days after her 2nd Pfizer COVID-19 mRNA vaccine she took on Aug. 2, 2021 ([click here](#)).

Italy (Rufanno) - 14 year old girl Majda El Azrak got her 2nd Pfizer COVID-19 mRNA on Aug. 17, 2021, was hospitalized & went into a coma on Aug. 19, and died on Sep. 13, 2021 ([click here](#)).

Majda El Azrak: 14-Year-Old Who Went Into A Coma Two Days After Receiving Her Second Pfizer COVID-19 Vaccine Has Died

The COVID World post date: September 24th, 2021

RUFANNO, ITALY – A 14-year-old girl has died 1 month after receiving her second Pfizer COVID-19 vaccine. Majda El Azrak got her second shot on August 17th. She had a severe headache the next day and was hospitalized on August 19th. She slipped into a comatose state several hours later. The young girl of Moroccan origins died on September 13th. The doctors who administered the vaccine are under investigation.

Italy – 16 year old girl Giulia Lucenti died less than 24 hours after 2nd Pfizer mRNA jab on Sep. 8, 2021 ([click here](#)).

My Take...

This crime is taking place on a global scale.

Who is protecting these young girls? No one.

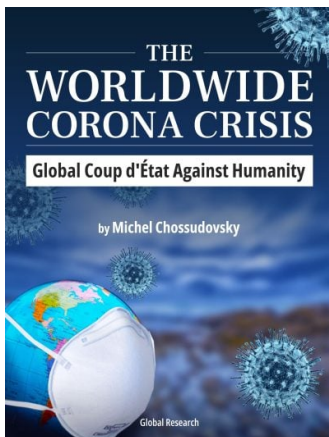

It didn't take long for the first 2024 child death from Pfizer COVID-19 mRNA Vaccine to be announced, on Jan.3, 2024.

This substack article, written to honor the first child Pfizer mRNA death of 2024, is a reminder that children continue to be killed by these toxic, failed mRNA products.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by **Michel Chossudovsky**

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. —Edward Curtin
