

Young People Who Suffered Blood Clots and Amputations After COVID-19 Vaccination Are Being Lied to, and Media Uses Them to Lie to Us

*There is a heartbreaking, tragic story that is promoted by mainstream media every few months, and that is the story of **20 year old Florida model Claire Bridges** who lost both legs due to what they tell us was "COVID-19".*

Published on Mar.5, 2023, CNN's article reads: "**She flatlined three times, lost both legs and had a failing heart. Yet she told doctors she's 'the luckiest person on this planet'.**" ([click here](#))

"In January 2022, Bridges was a 20-year-old model with her own apartment and a part-time job as a bartender in St. Petersburg, Florida. She was a vegan and "exceptionally healthy," according to her mother."

"When she caught Covid-19 that month, no one expected her to be hospitalized. **She was fully vaccinated and boosted.**"

But Bridges had been born with a common genetic heart defect...whether due to her heart or **another unknown reason**, COVID-19 hit Bridges hard.

"Extreme fatigue, cold sweats — progressively every single day it would get harder to try to eat or drink anything," she recalled. "Then one day my mom found me unresponsive and rushed me to the hospital. I flatlined three times that night."

"Diagnosed with **myocarditis, rhabdomyolysis, mild pneumonia, cyanosis and acidosis** - Claire was placed on dialysis to help her **failing kidneys**. The damage to her body, however, resulted in poor circulation to her lower limbs, leading to amputation." ([click here](#))

Beyond the CNN propaganda...

It's important to cut through the thick CNN propaganda and BS.

We have a perfectly healthy 20 year old young woman who took **3 COVID-19 vaccines she didn't need**, which probably severely damaged her immune system, caused myocarditis, blood clots and other internal organ damage, and when she fell ill with a flu or other respiratory illness, **her already vaccine-injured body fell apart, her post-vaccine myocarditis put her into three cardiac arrests, she developed blood clots and her ordeal resulted in both of her legs requiring amputation.**

In other words, this is a story of COVID-19 vaccine injury, from beginning to end.

How many unvaccinated 20 year olds had their legs amputated after catching COVID-19? If COVID-19 jabs were protective against hospitalization and 3 jabs failed to protect Claire, there should be thousands of unvaccinated 20 year olds with amputations due to COVID-19, who had no "protection" from COVID-19 vaccines.

THERE ARE NONE. If there were, the media would have eagerly told us. COVID-19 doesn't do this to healthy 20-year olds, but COVID-19 vaccines do. CNN doesn't tell us which 3 COVID-19 jabs she had. AstraZeneca and J&J were pulled off the market due to blood clots. Both Pfizer and Moderna have caused 1000s of cases of blood clots. These cases are in VAERS, Eudravigilance, and everywhere you look on social media:

After being told no jab no job, Cienna Knowles, a young Australian girl took the  and has paid a heavy price.

This mandate madness has to stop 

Fortunately Senator Rennick is pleading her case!
[Show this thread](#)

In her own words on her Facebook page:

"Crazy how quickly I went from a super healthy 19yr old kid who's never had any form of health issues ever. Working a full time job, training, and riding horses everyday. To having it all taken away from me after my second Pfizer vaccination. My lungs are full of blood clots & hearts under stress. My new normal of now having a pulmonologist dr, cardiologist dr, blood tests, full body scans, ultra sounds on my heart & lungs. Over a vaccination I got to do the right thing- & I never wanted to get because I was genuinely scared of running the risk. I wish I had never gotten it & I could have my healthy body back."

 **Cienna Knowles**
4 h · 

Please share my story- I wish no one to go through this. I'm still trying to wrap my head around everything. Thank you everyone for your love and support 

 **Senator Gerard Rennick**

Update on Cienna from her mother Rebecca Donnelly

"She was transferred to the respiratory ward last night the clots in her legs and stomach have broken off and thankfully pumped through her heart but broken into smaller pieces in her lungs not good but a good thing they made it through - the thinners are working hopefully but a long road ahead for at-least 12 months treatment hopefully not life long - it was confirmed last night she has PVT caused by Pfizer the first case they have seen as it's normally a AZ side effect."

DRAPER, Utah – A healthy athlete at Corner Canyon High School in Draper wound up in the hospital shortly after getting the COVID-19 vaccine. The question being asked was if the vaccine have something to do with it.

Everest Romney plays basketball for Corner Canyon High School. The 6’9” 17-year-old sophomore has been at Primary Children’s Hospital for a week after being diagnosed with blood clots in his head.

According to his mom, Cherie Romney, he got the Pfizer vaccine April 21. That night he started to feel swelling and pain in his neck. Days later he got extreme migraines, so she took him to the emergency room.

@Storiesofinjury

"I truly feel they killed my daughter." 💔

Amy underwent heart transplant surgery on 4/1/21, was forced to get the Moderna vaccine 8/29/21, and was found dead by her mother on 12/20/21. She was only 34.

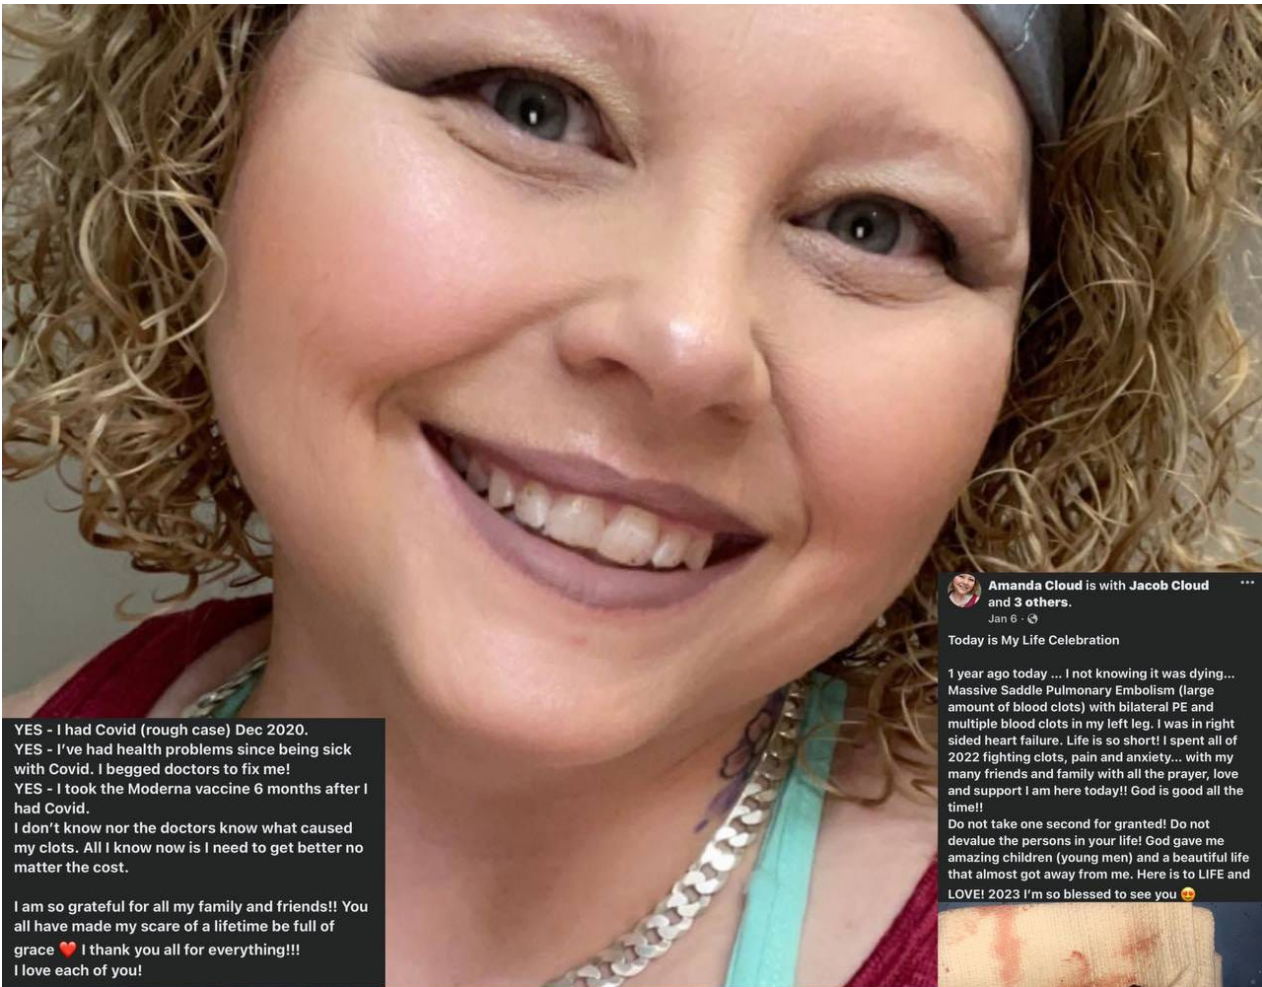

[@moderna_tx](#) gave her blood clots, pericarditis, and shingles.

February 7, 2023

COVID VACCINE INJURIES .COM

My daughter, Amy, 07/26/1988-12/20/2021 was born with a congenital heart defect and had 6 open heart surgeries in her young life, the last of which was a full heart transplant on 04/01/2021. She had some mild rejection issues at first then was doing great. She was back to work and working out in the gym. Her medical team forced her to receive the vax. She had the Moderna vax on 08/29/2021. Shortly afterwards she was diagnosed with pericarditis (in her brand new 23 year old heart), 5 blood clots AND shingles!!! She felt terrible all of the time and we were constantly taking her to the ER for blood clots. On 12/20/2021, I found her lifeless. I truly feel they killed my daughter.

YES - I had Covid (rough case) Dec 2020.
YES - I've had health problems since being sick with Covid. I begged doctors to fix me!
YES - I took the Moderna vaccine 6 months after I had Covid.
I don't know nor the doctors know what caused my clots. All I know now is I need to get better no matter the cost.

I am so grateful for all my family and friends!! You all have made my scare of a lifetime be full of grace ❤️ I thank you all for everything!!!
I love each of you!

Today is My Life Celebration

1 year ago today ... I not knowing it was dying... Massive Saddle Pulmonary Embolism (large amount of blood clots) with bilateral PE and multiple blood clots in my left leg. I was in right sided heart failure. Life is so short! I spent all of 2022 fighting clots, pain and anxiety... with my many friends and family with all the prayer, love and support I am here today!! God is good all the time!!
Do not take one second for granted! Do not devalue the persons in your life! God gave me amazing children (young men) and a beautiful life that almost got away from me. Here is to LIFE and LOVE! 2023 I'm so blessed to see you 🥰

@Storiesofinjury

A 27 year old NHS nurse who was 'full of life', passed away suddenly at home last July from a pulmonary embolism, from a blood clot in her lung.

She had just gotten married 6 weeks before she died unexpectedly.

Writing this because I was inspired by a friend who endured a similar experience. Next Month is blood clot awareness month. Last night I was diagnosed with a small pulmonary embolism in my left lung. Today I start blood thinners. I am lucky to have the experience I have working in the Emergency Department. Listen to your symptoms and get checked out. You're your best advocate.

Thank you to my wonderful coworkers who took care of me, I truly work with the best ❤️

RAISE YOUR VOICE TO

Raise Blood Clot Awareness

MARCH IS BLOOD CLOT AWARENESS MONTH

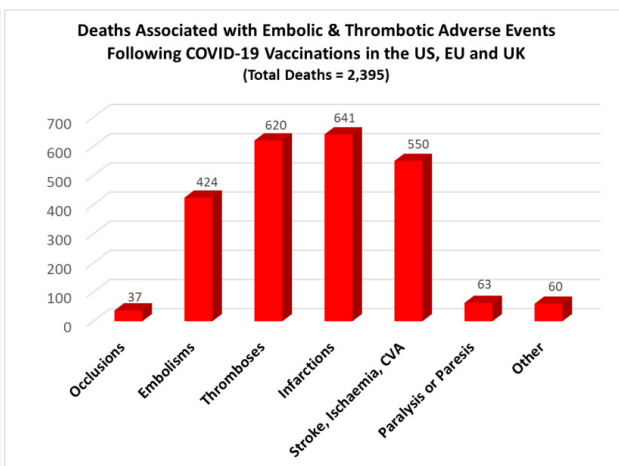

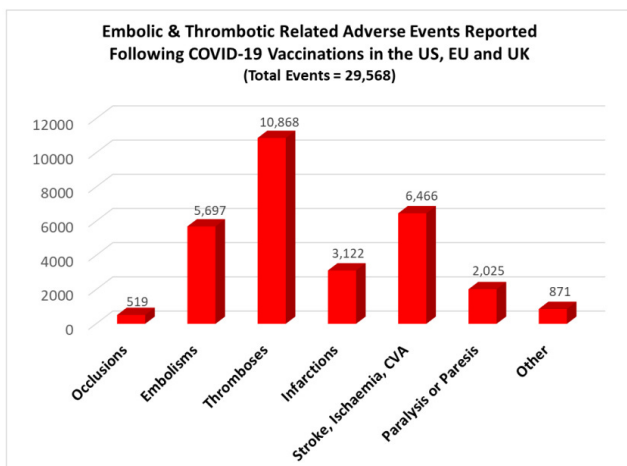

All COVID-19 vaccines cause blood clots

Shortly after the rollout of COVID-19 vaccines, 1000s of blood clot related injuries were being reported in VAERS, Eudravigilance, and UK Yellow Card. This was a report of blood clot related events as of May 14, 2021 by Josh Guetzkow:

Blood Clot Related Events Reported after COVID-19 Vaccinations (by Vaccine & Reporting System)

Type	US VAERS			EU EUDRAVIGILANCE				UK YELLOW CARD	
	Pfizer	Moderna	J&J	Pfizer	Moderna	Astrazeneca	J&J	Pfizer	Astrazeneca
Occlusions	71	49	57	104	38	118	19	14	49
Embolisms	325	361	277	1,137	292	1,745	156	234	1,154
Thromboses	759	502	886	1,830	379	3,824	404	301	1,965
Infarctions	351	310	120	785	257	707	78	144	369
Stroke, Ischaemia, CVA	578	613	233	1,519	489	1,451	160	312	1,099
Paralysis or Paresis	182	194	95	503	164	468	54	93	268
Other	155	129	192	85	33	141	67	14	54
TOTAL	2,421	2,158	1,860	5,963	1,652	8,454	938	1,112	4,958

Note: Table does not include cases where vaccine was unknown. For UK Moderna is not shown because it is not widely used.

Denials by Pharmaceutical representatives...

Eric Feigl-Ding 
@DrEricDing

'Moderna vaccine does not cause blood clots' is the gist of this press memo. [#COVID19](#) [#CovidVaccine](#)

Statement on CVST or Thrombotic Events

A comprehensive assessment of the totality of the available safety data for mRNA-1273 after over 64.5 million doses administered globally does not suggest an association with cerebral venous sinus thrombosis (CVST) or thrombotic events.

Analyses performed using data through March 22, 2021. Number of vaccinations was derived from the U.S. Centers for Disease Control and Prevention (CDC) website, European Centre for Disease Prevention and Control (ECDC) website, and inferred for other countries based on distribution and the proportion of doses distributed administered in EX-U.S. settings.

Fraudulent Reuters “Fact Checks”...

The fact that Claire Bridges case has a Reuters “Fact Check” is a big red flag. I have extensive experience with Reuters, I spoke with several of their reporters and they deliberately released several **completely fraudulent fact checks** about my work exposing the dangers of COVID-19 mRNA vaccines.

Fact Check-Florida woman who lost her legs had COVID-19 complications and heart condition

By Reuters Fact Check

6 MIN READ

Despite wide reporting on the challenges faced by Claire Bridges, a 21-year-old Florida woman whose legs were amputated in 2021 after battling COVID-19 complications and a congenital heart condition, some social media posts are blaming the loss of her limbs on COVID-19 vaccines.

This false claim was shared on Twitter on Jan. 16, ([here](#)). Posts are also viewable on Facebook ([here](#)), ([here](#)).

My Take...

Claire has gone through an absolute nightmare. It is very probable that she is a victim of COVID-19 vaccine injuries, and not COVID-19. There are thousands of victims just like her. **AstraZeneca and J&J were pulled off the market due to blood clots but Pfizer & Moderna also cause blood clots and to a very similar degree.**

To this day, Pfizer and Moderna deny that their COVID-19 mRNA vaccines cause blood clots, and their victims are being ignored by doctors.

Any mainstream media story that blames blood clots on COVID-19 instead of COVID-19 vaccines is abusing vaccine injury victims and blatantly lying to the rest of us. Considering this is CNN, this is not surprising in the least.

When it comes to mainstream media and COVID-19 topics, the truth is almost always the exact opposite of what they report. The fact that they give so much exposure to Claire's story, shows how desperately they are trying to deflect our attention from the ugly truth.

Re-watch the video above, this time in the context of a COVID-19 vaccine injured victim. It feels completely different, because the pharmaceutical companies knew from the very beginning, that their products were causing these injuries. They just didn't care and neither did any doctor or politician who pushed the vaccines.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
