*When documenting sudden deaths of COVID-19 vaccine mandated professions like doctors, nurses, athletes, police officers, firefighters, military, bus drivers, pilots, or University and College students, it is easy to forget that in late 2021 and early 2022, teachers were mandated to take COVID-19 vaccines as well, or they faced losing their jobs and their entire teaching careers.*

These 14 sudden deaths are just examples of what happened to many of those teachers.

Bentonville Schools  
April 24

It's with profound sadness we share the passing of Elm Tree Elementary Principal Amy Simpson. Amy passed unexpectedly from natural causes over the weekend.

Amy was so much fun and loved to laugh. She adored her friends and her precious students. More than anything, Amy loved her beautiful family. She is survived by her husband of nearly 30 years, Stan, and their three children, Madison, Makenzie, Mason, and her beloved family dog, Wrigley.

A celebration of life will be held Thursday, April 27, at 5:00 p.m. at First Baptist Church in Bentonville.

We hope you'll join us in lifting up the Simpson family in your thoughts and prayers.

Students and staff at the University of Exeter have been left broken-hearted after the unexpected passing of a lecturer, colleague and friend, Dr Claire Dinan.

An inquest was recently opened at Plymouth Coroner's court into the death of 53-year-old Dr Dinan by assistant coroner Philip Spinney. At the brief hearing, held on April 14, he noted how Claire was born in Plymouth and resided in Dawlish.

He went on to note at the public hearing how Claire had passed away at a property in Cliff Road, Teignmouth in Devon on April 6 this year at 3.50pm. He noted that at the time of her death she was married and a university lecturer.

In the opening statement, released by the coroner's court following the hearing, the circumstances of her death was noted, stating that "Claire went to stay with her mother for the evening after a period of feeling unwell.

"She went upstairs in her parents house where she was staying. After a period of time Claire's mother went to see her to provide her with some food and sadly found her on the stairs where she was found to have passed away."

Mr Spinney made clear that there were no suspicious circumstances and on the present evidence the medical cause of death had not been ascertained and a toxicology report was awaited.

### My Take...

All COVID-19 mRNA vaccine mandated professions are now seeing 550% increase in disabilities and 40% excess mortality (Source: Ed Dowd)

Looking at these 14 tragic deaths of teachers, ages 24 to 55:

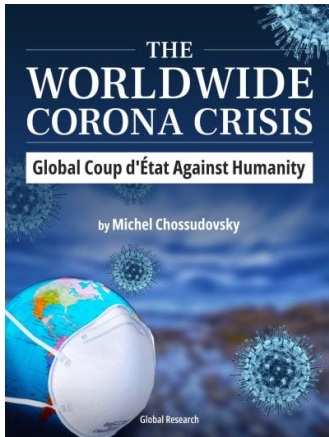

- 4 died in their sleep
- 4 collapsed with cardiac arrest (one on stairs at home, one on stationary bike, one with rare blood clotting disorder, one at 2pm at home)
- 2 sudden deaths (cause not specified)
- 1 pulmonary embolism
- 1 brain aneurysm
- 1 died from immune dysfunction (bacterial meningitis)
- 1 turbo cancer

**This is the pattern of causes of deaths we now expect to see from a COVID-19 mRNA vaccinated population.**

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*
