Western-supported Zionists bomb civilians in areas identified as "safe" as policy.

Gaza journalist Bisan Owda describes how Zionists recently bombed and massacred, from the air and the sea, about 300 civilians taking shelter in their tents.

The number 300, she says, does not include those buried alive or those who have not interfaced with hospitals.

The bombs upturn the earth and bury people alive.

This massacre of 300 is only one of the 3,000 that have so-far been committed by Zionists against Gazan civilians.

Imagine that. No, we can not imagine that. Impossible.

This genocide is even more impossible for Westerners to imagine because not only do the American-supplied bombs bury people alive, but the Zionists also target civil defence workers and ambulances.

This of course is all part of the Western/Zionist-imposed genocide against Palestine and Palestinians.

As mentioned earlier, the genocide also involves targeting electrical, [water](#), and health care infrastructure, with a view to further imposing famine, disease, and disaster. Famine and disease are fabricated instruments of genocide.

In this video, Dr. Ahmad Yousaf, reporting from Deir Al Balah, describes the staggering and grossly under-reported death count from the bombs and the bleeding, from the siege and the restrictions on humanitarian aid.

Author and human rights lawyer Dan Kovalik noted on his Telegram page,

“Today’s horrific massacre & savage bombing of displaced Palestinians in Israeli designated ‘safe’ zones of Muassi, Khan Younis is the latest in an escalation that has turned all of Gaza into one massive death zone. American bombs & shells rain down on Gaza while the Israeli government & thugs succeed in preventing any form of medical, food, or fuel supplies from reaching the devastated population.”

This is genocide, in plain view, for all to see.
